

HYPERBARIC SURVEILLANCE CAMERA

Model: SCC-01

MODEL INFO

This compact surveillance camera shall be easily mounted within any hyperbaric chamber up to 300msw (31.4bar). The nylon made body provide excellent protection and durability to the internal components and it is maintenance free in presence of seawater.

A transparent thermoplastic resin envelop protects the internal components from pressure and it avoids any possible spark.

TECHNICAL DATA

Physical

Body diameter:	55mm (2.16in)
Body height:	120mm (4.72in)
(included support)	180mm (7.08in)
Cable lenght:	as required

Specification

TV System	PAL
Horizontal resolution:	420 lines TV
Video output:	1Vpp, 75Ω,
Lens mount:	3.6mm F2.0
Voltage:	12Vdc
Power consumption:	100mA

Environmental

Temperature (°C):	-10 ÷ +50
